SECTION I

The first section of the Report describes the remuneration policy adopted by the Company (hereinafter the “**Policy**” or the “**Remuneration Policy**”) defining principles and guidelines that Digital Bros Group uses to determine and monitor the application of remuneration practices for Board members and key managers.

The Remuneration Policy was approved by the Board of Directors on 2 October 2019 as proposed by the Remuneration and Appointments Committee, applying recommendations of the Corporate Governance Code for listed companies. The Remuneration Report will be submitted for review and an advisory vote to the Shareholders’ General Meeting.

The related party transactions procedure adopted by the Company, pursuant to the adopted Consob Resolution No. 17221/2010 and subsequent amendments, establishes that the procedure does not apply to resolutions concerning the remuneration of directors with special responsibilities and other key managers, except as regards any possible disclosures to be made in financial reports for the reporting period, as specified therein, as long as:

- i) the Company has adopted a remuneration policy drawn up by a committee consisting solely of directors or non-executive directors, the majority of whom are independent;
- ii) a report disclosing the remuneration policy has been submitted for approval or for an advisory vote to the Shareholders Meeting;
- iii) the remuneration is consistent with the suggested policy.

In preparing the remuneration policy proposals, the Remuneration and Appointments Committee did not consider necessary the assistance from external independent experts.

Without prejudice to the powers entrusted to the General Shareholders' Meeting in accordance with the law and the Articles of Association, the Board of Directors defines the Chief Executive Officer remuneration for his office and the Chief Executive Officer himself defines the remuneration to be given to other managers holding strategic responsibility (also by way of suggestion and proposals to subsidiaries' corporate bodies).

1.4 Board of Statutory Auditors

The Board of Statutory Auditors expresses an opinion on the proposed remuneration for Directors and Directors holding special offices, verifying the compliance with the Remuneration Policy.

2. Principles and purposes of the Remuneration Policy

Remuneration of Directors and Directors holding special offices is defined to ensure a remuneration structure that considers the professional value of each individual and that balances fixed and variable components, in order to create a sustainable value in the medium and long term perspective, and to guarantee a correlation between remuneration and specific performance goals.

The Remuneration Policy seeks to enhance personnel motivation and their will to undertake responsibilities for performance excellence, granting that the fixed component and the variable component are adequately balanced and defining a balance between short-term and medium/long-term objectives in order to align Executive Directors interests with value creation, shareholders' primary objective in a medium/long-term perspective.

The Remuneration Policy takes into account the following guidelines detailed below:

- the fixed component shall be sufficient to compensate Directors for their services in the event that the variable component is not paid due to failure to meet the performance objectives set;
- the short and medium/long term variable component shall be defined within pre-established limits and shall be rewarded only upon the achievement of specific performance objectives (“ON/OFF” mechanism”);
- the short-term variable component is measured mainly on earnings objectives for the financial year;
- no medium/long-term variable component for Executive Directors is envisaged as the share-based scheme incentive meets the requirements of the Corporate Governance Code.

The performance objectives are:

- priority because, even if related to short-term, they are directly connected to the Company's medium/long-term strategy;
- specific, as they are clear and concrete in terms of the expected results;
- measurable, as they are defined using clear and predefined indicators;
- realistic, as they shall be achievable, albeit challenging and ambitious;
- defined in terms of time.

2.1 Remuneration Policy principles

The Remuneration Policy is defined considering different principles and criteria in respect of the fixed and variable short and medium/long-term components and different recipients.

The Remuneration Policy was defined taking into account market best practices without any specific referral to other companies' remuneration policies.

Following the market best practices, the Company underwrote a *Directors & Officers Liability Policy* (D&O) to cover the Group from the risk of third-party claims arising from corporate bodies actions in performing their duties (excluding the cases of willful misconduct or gross negligence).

2.1.1 Non-executive Directors

Non-executive Directors are directors with no individual management powers nor management positions in the Company or in other Group's subsidiaries. The remuneration of Non-Executive Directors is determined as a fixed compensation and it is proportional to the commitment required, in relation also to their participation into the Board's committees.

The remuneration of such directors is not linked to economic results nor to specific objectives of the Company and such directors do not benefit from remuneration plans based on stocks, unless specifically resolved by the Shareholders' Meeting.

2.1.1 Executive Directors

The total remuneration for Executive Directors is defined in line with market benchmarks and other factors including their contribution to Company's results, their working performance and a right balance with internal remuneration levels considering the Group's size.

The remuneration of Executive Directors holding specific offices is composed as follows:

- a **fixed component** consistent with management powers and special positions assigned;
- a **variable component**, defined within pre-established limits and designed to reward expected short-term results (MBO);
- a **stock option plan**;
- other components.

Executive Directors holding professional or executive positions within the Issuer, beside the fixed component determined by the Shareholders' Meeting, are rewarded with a variable remuneration decided by the Board considering the following criteria.

Fixed Remuneration

The fixed component of remuneration for Directors holding specific offices is defined by the Board of Directors, based on proposals formulated by the Remuneration and Appointments Committee having heard the Statutory Auditors, in accordance to art. 2389, par. III of the Civil Code.

The fixed component is consistent with the level of management powers, special positions and strategic responsibility assigned to each director.

Variable Remuneration (MBO)

The variable component of remuneration for Directors holding specific offices is defined by the Board of Directors, based on proposals formulated by the Remuneration and Appointments Committee having heard the Statutory Auditors.

The short-term variable component (MBO) is designed to reward upon the achievement of pre-determined annual quantitative results linked to some performance indexes at Group consolidated level. The variable component is paid upon the approval by the Board of Directors of the draft financial statements for the fiscal year, after the Remuneration and Appointments Committee has assessed the achievement of the performance objectives. Objectives are based on budget data and are exclusively quantitative, using unbiased indicators and available performance indicators, in order to reduce the risk of biased valuation and to guarantee an adequate consideration of all management aspects.

The mechanisms for the calculation of annual MBO requires the achievement of the 100% of the quantitative objectives assigned and the total payment of the annual payable remuneration. The variable component shall not exceed 30% of the fixed component as director for Chief-Executive Officers and shall not exceed 30% of the annual gross salary and the non-competition agreement for Executive Directors with an executive and/or professional contractual role.

The annual performance objective is the consolidated EBIT. Considering that the Group has registered negative EBIT in the last two financial years and in view of the launch plan of new products during the fiscal, the profitability objective for the financial year ending 30 June 2020 is considered suitable for:

- i) award the Group's revenue growth on which the EBIT objective depends;
- ii) grant personal presidium and individual accountability;
- iii) communicate sense of belongings and team work.

The Company may ask to reimburse in full the paid variable amounts if such amounts have been calculated based on data which then revealed themselves as being clearly incorrect.

Starting from last fiscal year, there is no medium/long-term variable component for Executive Directors as the stock option plan assigned to them has been evaluated adequate to what required by the Civil Code. Even if the exercise price of the stock options assigned to Executive Directors is lower than the stock price registered on the market during last months, the stock option plan assigned to Executive Directors has been assessed to have all the characteristics to guarantee objectives provided by the Corporate Governance Code, as the price decrease registered starting from November is considered to be temporary.

Stock Option Plan

With reference to the incentive plans based on financial instruments to submit to the Shareholders' Meeting approval pursuant to art. 114-*bis* of the Consolidated Financial Act and subject to specific market information in accordance to current provisions, detailed elements and application methods are defined by the Board of Directors with the advisory and proactive support of the Remuneration and Appointments Committee considering the Company risk profile and in accordance to the following principles:

- consolidation of a sustainable value creation process for the Company and for the Group in a medium/long term perspective and management incentive and loyalty encouragement through definition of long-term duration and vesting periods;
- assignment and exercise of the financial instruments subordinated to business or market performance objectives pre-determined and measurable;
- constraints to beneficiaries to leave the Company.

In defining and managing the incentive plans based on financial instruments, the Company used the assistance of an external primary Audit Firm in order to meet market standards for companies of similar size listed in the same regulated market segment.

Further information on the Stock Option Plan in place, pursuant art. 114-*bis* of the CFA, is provided in the Information Document pursuant art. 84-*bis* of the Consob Regulation no. 11971, 14th May 1999 and published on the Company website, www.digitalbros.com, Corporate Governance section, in accordance to art. 123-*ter*, par. 5 of the CFA.
